If you're having issues with the characters on the website being on top of each other or things looking out of place try this fix.

Open up the internet to the RMC website with the flags as the opening page but do not click on the picture to enter the website.

Next, in the upper right corner of the page click on the gear as shown in the picture below.

You'll get a pull down box with a number of options. Move your mouse to Compatibility View Settings and click on it.

You'll see a new window pop up on the left side of the screen. It will show readingmc.com in the box under Add this website: and it might be highlighted in blue as shown below.

Compatibility View Settings	×
