Proceeds Benefit :

Brayden Shaffer - On November 9, 2018 he woke up and expressed he could not see. He was seen by doctors and was diagnosed with a tumor on his pituitary gland. He had surgery the next day. January 15, 2019 was his second surgery which lasted 11 hours and 57 minutes, unfortunately during this surgery it caused him to have a spinal fluid leak. He is legally blind in his right eye and has limited vision in his left. He has had 25 surgeries since November 2018. He takes 1054 pills monthly. Brayden is now 17 years old.

Garrett Coyne - Garrett has a rare terminal illness called Batten Disease or NCL type 1. He was diagnosed with the disease at the age of 4. At 3 1/2 years old he started to lose his vision and lost most of his vision by the age of 4. He has out-lived all the statistics. Since diagnosis Garrett has continued to fight and has lost so much. He cannot see, talk, walk, eat, laugh or play on his own. He requires 24-hour care, around the clock tube feeding, diaper changes, position readjustments and multiple medications day and night. His seizures can be unpredictable therefore requiring special care. Garrett is now 12 years old.
